

ABC Hawaii is offering a NCCER Project Management class in February 2018. It is a quick 6 week program, covering the entire project management process from start to finish. Classes will be held on Saturdays, 8 hours per day. The first day of class is Saturday February 3rd, 2018.

Price is \$400 for ABC Hawaii Members and \$500 for non-members.

Deadline to sign up is January 4th 2018.

Water, coffee, and juice will be provided, parking is limited so come early and please only park in the ABC marked stalls.

Project Management

Construction project managers plan and direct the building and maintenance of everything from bridges to high-rises to wastewater systems. They usually have the satisfaction of seeing a job through from start to finish. In a typical day, project managers might meet with owners, examine a work breakdown structure (WBS), negotiate with sub-contractors, and directly supervise crews. Their qualifications include both formal education and in- formal on-the-job training, and their knowledge encompasses construction materials and methods, mathematics, communications, safety, human resources, scheduling, and customer service, among other areas.

This one-level curriculum covers topics such as Construction Documents, Resource Control, and Continuous Improvement.
